## Barclays Wealth Intermediaries Rates apply to Barclays Private Clients International Limited

### Reference Rates

The following reference rates are used for products that track the Base Rate:

For sterling deposits the Base Rate is the Bank of England Base Rate which is currently 0.50%.

For US dollar deposits the Base Rate is the Federal Reserve Funds Rate which is currently 0.25%.

For euro deposits the Base Rate is the European Central Bank Main Refinancing Rate which is currently 1.00%.

### Managed Rates

The following is a summary of the “material” change rules referred to in the Barclays Wealth Terms and Conditions. The rules apply where we pay interest on a fixed term deposit, or on an account that is in US\$ or another non-EEA currency. They do not, however, apply where the rate tracks an external rate which is not set by Barclays.

We will personally notify you at least 14 days before changing the rate on the account if you have at least £500 (or equivalent) in your account and we will be reducing the rate by:

- more than 0.25% in one go; or
- 0.50% or more over the period of a year.

For the full detail, please see the Industry Guidance to the FSA BCOBS rules at [www.bba.org.uk](http://www.bba.org.uk).

If we give you such personal notice, you will also have a limited period to close your account without notice or cost in accordance with the Barclays Wealth Terms and Conditions.

Where we do not need to give you personal notice to make the change, we will make the new rate available on our website as soon as reasonably possible after the change.

### Important Information

Where the “% below Base Rate” is greater than the applicable Base Rate we will never apply a “negative” interest rate of below 0% and may choose to continue paying you a nominal rate of interest.

If your account goes overdrawn without prior arrangement, you will be charged the Barclays unauthorised borrowing rate of 29.5%.

### Definitions

**Annual Equivalent Rate (“AER”)** – Illustrates what the interest would be if the interest was paid and compounded once each year.

**Gross Rate** – is the rate of interest payable before the deduction of tax. Interest is payable gross to non-tax payers subject to the required certification. Account holders should check their own tax situation, as there may be a potential tax liability.
